AGRICULTURAL IMPLEMENT WHOLESALERS

**PREADMASTER®**

**atv trailed  
spreaders**

Two popular size ATV trailed spreaders with hot dipped galvanised frames and UV Treated polypropylene hoppers featuring stainless dispenser disk and twin adjustable sliding shutters on the side. These shutters can be also adjusted to give side discharge spreading if desired. Even spreading is maintained from 8 - 12 meters. A simple pin engages the ground drive for operation. Covers are also available.
